Out of the ashes of grand master perennials, Sick Hammers, from a scorched post-bellum landscape 'neath the lone star flag--and with just a dash of Pacific primordial ooze--the brothers of SICK have unionized for the world's first foray into great-grandmasterdom (great-grandmastery?).

The roots of this creature's family tree stretch far & wide, through states yankee-fied and those under the Mason-Dixon. And whilst these fighters share certain traits (bruised & re-sewn skin, graying whiskers, creaking joints), each chooses his own weapon (no-look hammer, surreptitious scoober, tilt-a-whirl blade) to achieve the explicit (and implicit) goal.

Seniors In Control of Karma. Soldiers In Contorted Kinkiness. Savage Inventors of Cosmic Knowledge. Call us whatever you will: We wish we didn't know now what we didn't know then.

Only the Best

Schedule of Events

Saturday

Team Check-In at 8:00am
 Pool Play Games 9am, 11am, 1pm
 Beer Garden Opens at 11am
 GGM Group Photo at the
 Headquarters After Round 1

Sunday

Sarasota Sunset Game Start Times 9am, 11am, 1pm
 Beer Garden Opens at 11am
PAUC Opening Ceremonies 1:30PM
GGM Championship Game 2pm

Check Out UltiPhotos.com for Pictures or all the Weekends Action.

Since rising from the ashes of their youth in the late 1990's, Age Against the Machine has led the struggle for spirited Old Man Ultimate. With appearances at the 2001 and 2004 Masters Nationals, multiple Grand Masters Nationals, and first GGM Nationals, multiple World championships in Montreal, and the first Great Grand Masters world championships in 2016, this collection of crafty, crusty and creaky men continue to encourage their fellow aged to wake up, know your enemy, and settle for nothing. Like bulls on parade, these men, formerly perky and even approaching athletic, but now armed only with their wisdom and perseverance, and lacking in skill what they also lack in speed, will rise up one final time against the unrelenting Machine

Some things get better with time; wine, art, music and memories. And some things, well, they are better off if allowed to grow of their own volition. Such is the case with TriAged, the NC Triangle area's first Great Grand Masters (GGM) team. TriAged formed in 2015 quickly establishing itself as a leader and as a solid presence in the GGM scene having competed locally and outside of NC. The team combines an amazing balance of SOTG, fun, skill, athleticism and good looks always promising a spirited and competitive challenge. Come check us out to share stories about Ultimate and what makes NC a hotbed of Ultimate for the young and the less young. TriAged will continue competing in 2017 and show what a bunch of Great Grand Masters can do!

We are Archive, a collection of historical material and ancient information. We assimilate all things Ultimate. Is it old and broken? Archive it! Is it the stuff of legends? Archive it! Is it obsolete or defunct? Archive it! All is archived, preserved for the time when it may be resurrected to see the light of day once again. Nothing is too old or foolish for us to pull out of the archive --- and put to immediate use on the ultimate field for better or worse. Mostly worse. No matter, though! For we are here to play with Spirit, meet friends old and new, and relive ancient days of glory. We look forward to seeing you on the fields!

A card game designed for kids, but fun for all...and with enough support, will help us to raise money for Ultimate Fields. Help us share the word.

www.LilPiggiesCardGame.com

S'more Old Ultimate Players doing their thing.

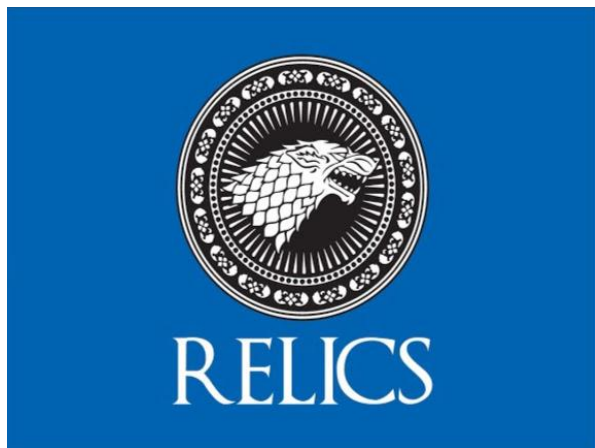

Originally created for Toronto people to keep playing fun and competitive ultimate, we've been joined by many friends from across the country and around the world in the different tournaments we've attended. Our first tournament was Beach Worlds in Italy last year and we did well enough to earn a bid to 2020 Beach Worlds.

Good luck to everyone this weekend!

We also like to drink beer and eat anything maple flavoured.

The Relics are a San Francisco/Bay Area based GGM team formed in 2017. We are back for our 2nd Sarasota Sunset with ~900+ years of Ultimate experience, The “Original 7 on the line” Relics are joined by some great players & friends from Chronic and some new GGM Relics from Johnny Walker GM. Looking forward to seeing and playing against all our finely-aged, mature, and smooth Ultimate friends from years, and years past.

DoG is one of the most storied franchises in ultimate history. Begun in 1994 after years of close misses for Boston ultimate teams, Death or Glory immediately made an impact, running off six consecutive National Championships in Open along with three Worlds titles. The team also won titles in their first year in both Masters (2007) and Grand Masters (2009), plus a Masters World championship (2008). The team took a hiatus after its remaining core joined up with No Country in 2013, but with advancing age moved on to GGM in 2018. The team has remained competitive, finishing 3rd at USAU Nationals in 2018 and 2019 and winning the Sarasota Sunset Championship in 2018.

MADISON
THROWBACK

SINCE 1977

Madison Throwback is new to the Great Grandmasters division, but the team traces its roots back to the original Madison Ultimate team founded in 1977. Our name comes from the throwback red and white op-art jerseys which you may remember from the early 1980s. Although Throwback is based in Madison, Wisconsin, we include players from Milwaukee, Oshkosh, the Twin Cities, Seattle, Portland, Denver, Atlanta, Little Rock and Pennsylvania. We look forward to competing with you and enjoying a nice throwback down memory lane with you this weekend!

As the name implies we are not just a single use item. Having had a long and productive first use, primarily in the South, time has taken its toll. Although we aspire to be every bit as good as we were initially, we have come to realize that upon being recycled, we may have suffered some decay. That being said we still can hold our own at the party and who knows we might even surprise ourselves by occasionally by doing something on the field, that others might find noteworthy. I assure you this is most likely accidental. With our recycled arms all our hammers now go 75 feet instead of 75 yards but that's OK because our receivers only go 25 yards before needing a breather. We are excited to have formed this team from a bunch of discarded players and as the team motto goes: REDUCE! REUSE! RECYCLE!
